(54) ORGANIC LIGHT EMITTING ELEMENT

(57)Abstract:

PROBLEM TO BE SOLVED: To provide an organic light emitting element taking on various hues, giving light of high brightness at low impressed voltage, and excellent in durability.

SOLUTION: At least one of the layers consisting of organic compounds contains at least one kind of pyrazole compound or pyrazoline compound expressed in formula (I). In the formula, R1 denotes H, an alkyl group, aryl group, and a heterocyclic group, and Ar1 to Ar3 denote an aryl group, a heterocyclic group or the like.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
